

## Thermal Dispersion Flow Switch

### Features

- ✓ Adjustable set point from 1-90 fps with LED for flow or no-flow status
- ✓ Available in short and long sensor lengths for flexible installation
- ✓ 1A relay selectable NO or NC via power supply wiring polarity

### Description

The general purpose gas flow switch is a great choice for a broad range of relatively clean gases with non-coating characteristics. Media examples include nitrogen and scrubber exhaust fumes. The 1A relay provides a reliable switch interface with remote devices such as a PLC, SCADA or alarm. The short sensor is intended for use in pipe or ducting from 1/2" to 1-1/2"; the long sensor is applied in 2" and up. The switch set point may be adjusted from 1 to 90 fps. The product is broadly selected for low or no-flow applications.

#### Ordering Notes

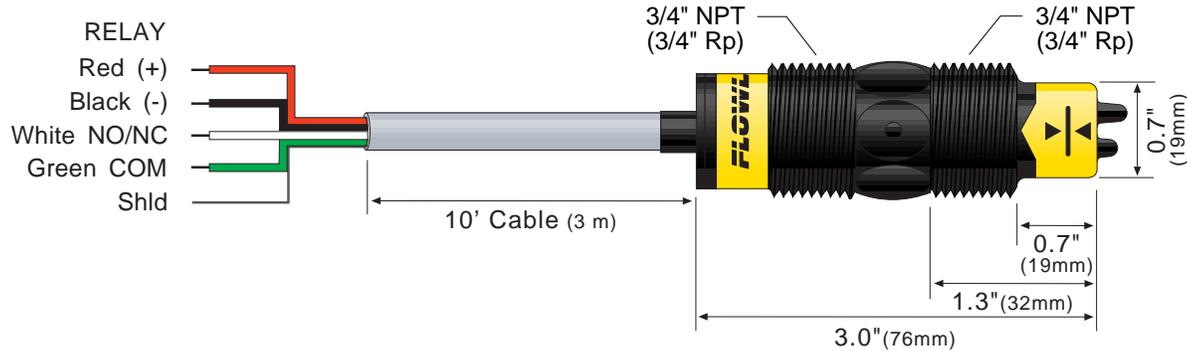

- 1) To special order a 25' (7.6m) or 50' (15.2 m) sensor cable, place the cable length at the end of the part number (ie: GT10-1305-25').
- 2) Select the short sensor for use with pipe sizes from 3/4"-1 1/2" (D25-D50) and the long sensor for 2" and higher (D63 up).
- 3) The Metric sensor is offered with straight G threads on the sensing side and conical Rp threads on the cable side of the wrench flat.
- 4) The straight G thread version seals with an included Viton® mounting gasket.
